

M/Y ASTRUM

Built in 2020 Astrum offers a new build yacht without the new construction waiting times

Astrum is a flexible and guest friendly yacht with plenty of space both inside and out for guests to enjoy. The hull built from steel with an aluminum superstructure makes astrum a very sturdy and safe yacht capable of withstanding seas that would keep other comparable yachts in port. The exterior is sleek and robust providing great outdoor areas on each deck whilst also providing plenty of indoor space too. On the sundeck you will find plenty of sunpads surrounding a Jacuzzi with a bar and alfresco dining options. The bow also contains some great exterior seating options being home to a table and more sunpads. The interior receives plenty of light allowing thanks to the very large windows for great views of your surroundings. These windows also amplify the largness of the interior which features contrasting dark woods with light fabrics and loose furniture to create a calming and comfortable environment. Astrum is capable of accommodating 12 guests in 6 cabins with the owner's cabins being located on the main deck. Astrum is powered by two Caterpillar C18 Acert diesel engines giving Astrum a maximum speed of 13 knots and a range of 5,000 nautical miles.
