***GTT 135***

**THE NO-COMPROMISE ALL-ROUNDER.  
EXCELLENT SEAKEEPING.  
EXTENDED RANGE.**

The GTT 135 is the perfect, all-aluminum, fast cruiser. Built on a 41 m (135 ft) platform with a comfortable round bilge hull and a shallow draught of just 1.6m, she is the ideal family superyacht for cruising the Mediterranean, Caribbean or Asian Pacific. Her transatlantic range of 3,000 nautical miles means the yacht can voyage between Caribbean and the Med on her own bottom to make the most of two cruising seasons over the course of the year.

With the largest sundeck in her class (120 m<sup>2</sup> / 1,291 sq/ft) and five very spacious staterooms, she is the epitome of versatile luxury in a user-friendly and relatively compact package.

# STRINGENT STANDARDS

***GTT 135***

In order to create a perfect yacht, from the outset Dynamiq decided to comply with the strictest requirements for comfort and safety. Every Dynamiq yacht is built in accordance with the latest Large Yacht Code (LY3) commercial regulations. This not only makes them ultra safe, but also means they can be chartered to provide an income for their owners.

Dynamiq and its partners are deeply aware of the need for sustainability. We strongly believe that eco-friendly yachts are a requirement for today's owners and their guests. That is why our yachts feature fuel-efficient hulls and reduced air-conditioning loads thanks to special XIR laminated glass.

We are genuinely committed to protecting the world's oceans, coastlines and the global ecology by reducing fuel consumption and emissions through innovative waste management solutions. All Dynamiq yachts are designed and built to meet the strict environmental standards of RINA's Green Star Plus notation.

Moreover, intensive research into reducing sound and vibration and the use of modern insulation materials create a near silent yacht with exceptional acoustic privacy between cabins. These elevated levels of comfort for passengers and crew have been rewarded with RINA's prestigious Comfort Class notation.

# WELCOME TO THE NEXT-GENERATION WORLD

Dynamiq is a Monaco-based builder of superyachts with unique functionality. Using leading-edge technology and elaborate hydrodynamic research, Dynamiq has created a family of all-aluminium yachts that combine the 20-knot-plus maximum speeds of sport cruisers with the comfort and 3,000-mile range of displacement vessels. We call this new yacht category Gran Turismo Transatlantic, or GTT for short.

The brand was started in 2011 by experienced yacht broker and designer Sergei Dobroserdov, who assembled a “dream team” of world thinkers, designers and naval architects to design and fine-tune a new concept in yachting.

Dynamiq is also the first company in the superyacht industry to introduce an Online Configurator, allowing our yachts to be easily and transparently customised down to the last detail.

Our yachts are built in a modern facility in Viareggio on Italy's Tuscan coast under strict supervision and meticulous quality control.
