GTM 90
TRANSFORMER

TRANSFORMING GTM 90. KLASSEN EDITION

The fast & sporty yacht GTM 90 was developed not only to entertain, but also protect guests whatever the weather. The main aft deck and sun deck provide ample space for lounging open air and the beach club, spa, dining area and open-style galley with bar can be transformed with foldable bulwarks to allow a fresh sea breeze in. The striking exterior styling recalls the lines of modern supercars and a super-efficient hard chine hull delivers a top speed of 30+ knots with a range of 800nm at 17 knots.

The first edition of the GTM 90 is being developed in collaboration with leading VIP-car tuner Klassen with interior decor that mirrors the design of exclusive Klassen vans with different leathers, rich wood panelling and elegant LED courtesy lights. Klassen will also be responsible for all the exterior detailing, including leather supply, stitching and other special automotive design features.

KEY FEATURES

GTM 90 TRANSFORMER

Hard chine hull shape

Drawn by the famous Dutch naval architects Van Oossanen, the GTM 90 unique hull features a hard chine shape for remarkably low resistance and low fuel consumption, while still being capable of high speeds. To keep spray levels low, an integrated spray rail deflects water hitting the bow area. Built entirely from marine grade aluminium, the GTM 90 hull guarantees unparalleled comfort and safe operation for more than 25 years.

Robust full aluminium construction

Certified marine-grade 5083 aluminium and stronger 5383 Sealium, a lightweight alloy that weighs three times less than steel, is used for Dynamiq GTM 90 hull and superstructure. A lighter hull provides a better performance, shallower draft, lower fuel consumption. Another benefit is that aluminium guarantees a stiff, robust and vibration-free vessel that is very comfortable and behaves well in a heavy swell or choppy seas. The strength-to-weight ratio of aluminium is equivalent to that of steel and there is much less risk of serious damage in case of a collision than with a fibreglass hull. Unlike composite materials, aluminium is fully recyclable, odourless, does not rust or creak at sea and does not burn in the atmosphere.

Curved fin stabilizers by Side Power

Vector Fins stabilisers dramatically reduce roll as well as undesired yaw and sway motions caused by active fins. Their vertical concave shape creates a net force direction, both in cruising and at-anchor modes, so the work is more up-down instead of side-to-side. By changing the net force angle, this also increases the leverage arm around the boat's rolling point, further increasing the physical forces that work on the boat to reduce roll. This provides more effcient stabilisation per fin size, which means that drag and power consumption are a lot less than with other fins offering comparable roll reduction.

XIR glass

The GTM 90 features next-generation laminated XIR glass that allows maximum light transmission, while keeping solar heat gain at bay. Harmful UV rays are almost completely blocked, and heat transmission reduced by 60%. The result is an interior that offers the wide panoramas of large windows without the penalty of heat build-up. This means significantly reduced air-conditioning loads and therefore lower running costs. The glass manufacturer is Isoclima, an Italian high-tech company that also supplies glass for luxury automobiles such as Bentley, McLaren, Mercedes and BMW

MAIN SPEC

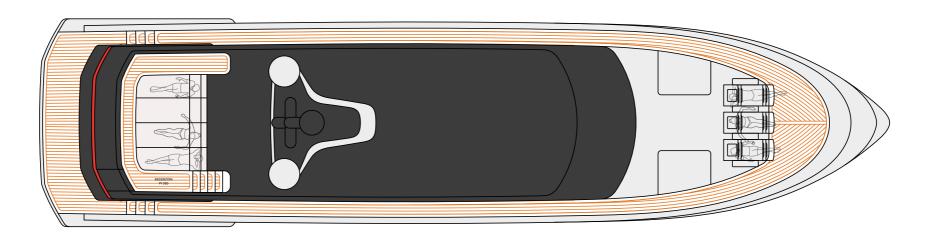

730 nm @ 20 knots

Length overall: Beam: Draft: Tonnage: Material: Hull type:	27.5 m / 90' 6.7 m / 21'11" 1.75 m / 5' 9" 160 GT Full aluminium, 5083 Hard chine
Main engines: Generators: Stabilisers:	3x Volvo Penta D13 IPS 1350, 735 kW 2x 28 kW Kohler 2x Side Power curved fins Humphree interceptors + Seakeeper 26 (option)
Max speed: Range:	31 knots 900 nm @ 15 knots

Fuel:	9,400 I / 2,480 US gallons
Fresh Water:	2,050 I / 541 US gallons
Grey and Black:	1,250 I / 330 US gallons
Guests:	8 in 4 cabins
Crew:	4 in 2 cabins
Tender	Williams 505 / Castoldi 16 (5,08 / 16' 8'')
Class:	ISO Class A, MCA MGN 280
Naval architecture:	Van Oossanen
Exterior design:	Dobroserdov Design
Interior design:	Giuseppina Arena / Dynamiq

PRICE, OPTIONS & PAYMENT TERMS

BASE PRICE: € 8,800,000

OPTIONS*:				
	Sport package (metallic paint / carbon trim)	€ 175,000		
	Silent package	€ 115,000		
	"Stabilisation +" package	€ 173,000		
	Bowers & Wilkins package	€ 39,000		
	Bentley Home interior package	€ 270,000		
	Heated bathroom floors	€ 17,500		
	Fine marbles in luxury areas	€ 49,000		
	Bed linen, bath and deck towels by Frette	€ 45,000		
	Interior scent diffusion	€ 4,500		
	Crew call buttons	€ 8,000		
	Williams Diesel Jet 505 tender	€ 71,000		
	Ice dispenser	€ 2,500		
	2 x Miele wine coolers	€ 9,000		
	Forward seats on main deck	€ 9,100		
	Panasonic bow camera	€ 4,500		
	7 Underwater lights	€ 17,500		
	VSAT Intellian V60	€ 35,000		
	V Class by Klassen	€ 195,000		
	Fun Air inflatable pool	€ 28,000		

PAYMENT TERMS:

1st year	
Contract signature	20%
Keel laying	20%
Main engines at the yard	25%
2nd year	
Interior installation start	20%
Launch	10%
Delivery	5%

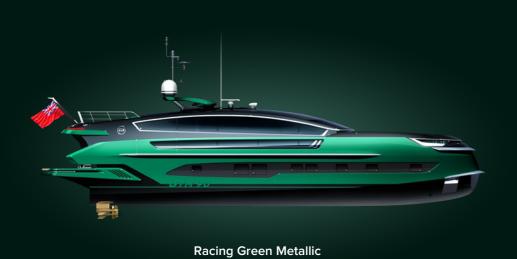

BUILD TIME:

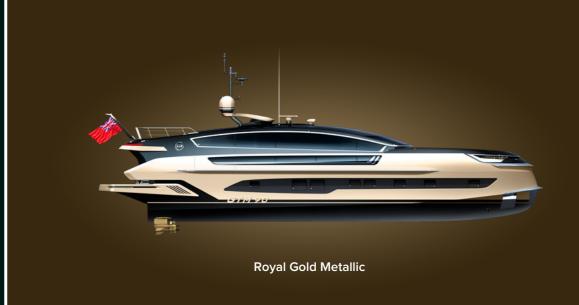

18 months

THE SHIPYARD

Dynamiq is a private shipyard founded in 2014 and owned by yacht broker and designer Sergei Dobroserdov. His main strategy with Dynamiq was to create a well-organised and owner/broker-friendly facility where clients and their reps can enjoy a creative and transparent construction process.

Dynamiq is the only shipyard in Italy building yachts to North European standards that are 100% created by leading naval architects and structural or mechanical engineering companies in the Netherlands. Dynamiq production is located in the picturesque area of Massa on Italy's Tuscan coast. This modern and high-tech facility is fitted out for building the full range of Dynamiq superyachts up to 50 metres in length with various powertrain options, including hybrid technology. The Dynamiq Yachts production facility offers the highest standards of working environment and quality control.

Come to Dynamiq if you want:

- 1. Original contemporary design;
- 2. Top-quality full-aluminum construction;
- 3. Complete Dutch engineering with naval architecture by Van Oossanen;
- 4. Top-class contractors and leading brand partners from interior design to high-end audio-visual;
- 5. Competitive Italian prices.
